Supporting your staffing needs through International Recruitment

We help our clients to reduce reliance on external agencies, deliver cost savings and support their staffing needs through outstanding international recruitment.

About the service

NHSP International is a specialist service designed to support your staffing by attracting talent worldwide and ensuring that they arrive ready to care for your patients.

We have exclusive relationships with the Department of Health and Social Care and NHS England and NHS Improvement, the Nursing and Midwifery Council and the UK Visas and Immigration, enabling us to have an agile process that can be flexed and adapted to suit your needs.

We can also provide an OSCE training programme and accommodation support to our Trust Partners who might be struggling with their capacity.

Who are NHS Professionals?

As the leading supplier of flexible workforce solutions to the NHS, we are experts in putting people in places to care throughout England. Wholly owned by the Department for Health and Social Care, we reinvest any surplus made into the wider healthcare economy.

Since 2016, we have recruited over 5,000 international nurses into the NHS, successfully eradicating vacancies at many of our partnered NHS Trusts.

"We needed nurses that were able to hit the ground running and we definitely got that."
